Dear Sirs

**Mr Ray Clarke – Clarkes Interiors**

My company has employed the services of Mr Clarke for various projects spanning over a decade or more, his services introduced to me through recommendation.

Being asked for a reference can sometimes be difficult as our integrity is in the spot light if later people are found wanting in some way. However in the case of Ray Clarke I cannot emphasize my total respect for both the quality of his work and his absolutely first class attitude in everything he has undertaken for our company.

Work has involved;

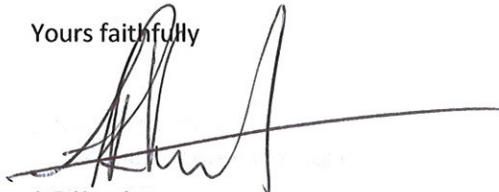

Building of internal walls.  
Fitting Doors.  
Suspended ceilings  
Stair Cases  
Locks, Hinges, door closures.  
Internal Windows.  
Fabricating work units.

The speed and standard of work has always been exceptional, he is a craftsman not a laborer, a rare commodity these days.

In our experience Ray Clarke is an honest, extremely likeable individual and frankly has achieved anything we have asked him to do with ease, his skill set seems to have no boundary.

If any further endorsement was needed simply put I would recommend and endorse Mr Clarke to anybody who is seeking a first class carpenter/fabricator.

Yours faithfully

A R Keatinge  
Managing Director
